

Embroidered Guideline

***EMBROIDERY TYPE: FLAT**

FILE FORMAT

For best results, please use PNG format. Image size should be 3307*827 pixels or higher at 300 DPI. Text size should be 3307 x 472 pixels or higher at 300 DPI. We digitize all files and don't accept files you've digitized yourself.

FONTS

All fonts in your embroidery files should be converted to outlines so you don't have to send over the font files.

TRUE TO SIZE GRAPHICS

Our customization area is limited to 28cm x 7cm. Please ensure your graphics adhere to this size restriction to avoid any issues with fitting. For optimal results, we recommend preparing your graphics in the correct dimensions before submission.

COLOR

Use solid colors only (no gradients or blends). Limit the embroidery to a maximum of 2 colors for the left chest.

Utilize the Flat embroidery type.

Below is a list of the available embroidery colors. Make sure you use only these colors in your embroidery files.

TRANSPARENT BACKGROUNDS

All colors that appear in your graphic will be embroidered, so be careful with white backgrounds. If you want a blank background, it should be made transparent.

Available embroidery colors

Use only solid colors, max of 2 colors for each placement and embroidery type. Make sure that your embroidery file contains only these colors.

Available fonts for standard embroidery

Instructions on how to prepare an embroidery file

1. **OPEN** The InterestPrint template or **CREATE** new document

2. Create or copy / paste graphics within maximum graphic size area.

Pay attention to graphics resolution.
